Subject: Changes to plan....
Date: 07/02/2011 03:31 PM

In talking with Michael Ortiz with NMED he is now requesting things differently than originally planned. He wants our data separately and then the NMED oversight and DOE-RAP as a separate file. Your thoughts on this? Also how are we going to provide this to them (format)....

He is not a data person so hopefully when he gets me in touch with their data person we can work out some of the technical issues.

Have a good weekend and talk to you later.

Matt
